COMPANY PROFILE 2024

صلالة للصناعات الحديدية ش م م
SALALAH STEEL INDUSTRIES CO. LLC

Salalah Steel, part of Muscat Steel Group is a privately owned company located in Salalah, Sultanate of Oman with the aim of producing reinforcement steel bars for local and international clients, according to universal and local standards with the highest quality, and also aims to be a significant influencer in the local and regional steel market with the vast experience, dedication and commitment to quality, of its employees and suppliers. In order to meet that goal, a state of the art steel rolling mill equipped with the latest European technology has been established.

Salalah Steel is one of the companies in the Sultanate of Oman established in 2017, and ISO certified for the Production and supply of steel Reinforcing bars and rods (8 mm -32 mm), with the capacity of 360,000 tons annually in order to meet the growing demand for reinforcing steel in the construction industry. The company has ISO Certificates as followings:

- ISO 9001:2015
- ISO 14001:2014
- ISO 45001:2018

The company owns an integrated laboratory and specialized in testing and checking the quality of the product in a detailed way. Highly qualified engineers and skilled technicians with long standing experience are to run the plant at a high standard and quality on a daily basis. Currently following standards are followed for production:
