Market expansion and customer engagement are crucial for the growth and sustainability of the company. Also, geographic expansion, product diversification, community engagement and customer service excellence.

NAPCO has left its stamp and mark on the architectural landscape of the Middle East, with its renowned quality products being used in a number of prominent structures. NAPCO has the dominant market share in the GCC. NAPCO is among the largest industries in Oman instead of oil and gas, it's a significant contributor to the Omani economy. With NAPCO's diversified products and services, it contributes to the growth and development of modern life and the living standards. It is a contributor to the economic divergence in Oman. It creates a business leadership and multiple opportunities to its stakeholders whether employees, customers, suppliers or other communities in which it operates in.

The construction industry plays a key role in the wellbeing of our societies, nationally and abroad. This sector creates new jobs, drives economic growth, and provides solutions to address social, climate and energy challenges. The construction industry has important linkages with other sectors, so that its impact on GDP and economic development goes well beyond the direct contribution of construction activities. Construction has been a major lever to unlock higher living standards. It shapes the world in which we live, work and relax, increasingly so as nations urbanize.
